AFL 20-26.3

**TO:** General Acute Care Hospitals

**SUBJECT:** Suspension of Regulatory Enforcement of Hospital Requirements  
(This AFL supersedes AFL 20-26.2)

**AUTHORITY:** Proclamation of Emergency and Executive Order N-27-20

**All Facilities Letter (AFL) Summary**

- This AFL notifies hospitals of a temporary waiver of specified regulatory requirements due to the state of emergency related to the Coronavirus Disease 2019 (COVID-19) outbreak.
- This AFL has been updated to extend the waiver until March 1, 2021.
- This AFL provides clarifying changes for downgrading, changing, or eliminating services and conditions for which facilities may request a staffing waiver.

Pursuant to the Governor's declaration of a state of emergency related to COVID-19, the Director of the California Department of Public Health (CDPH) may waive any of the licensing requirements of Chapter 2 of Division 2 of the Health and Safety Code (HSC) and accompanying regulations with respect to any hospital or health facility identified in HSC section 1250. CDPH is temporarily waiving specified hospital licensing requirements and suspending regulatory enforcement of the following requirements as specified below:

**Licensing**

Hospitals seeking initial licensure or to change beds or services to their license shall submit an application online at the CDPH Health Care Facilities Online Application webpage. This shall not require approval before the hospital may provide care, although CDPH will reach out to provide technical assistance to ensure patient safety and the quality of care.

**Space**

All statutory and regulatory provisions related to the configuration and use of physical space and classification of beds in a hospital. Hospitals may reconfigure space as needed to accommodate observed or predicted patient surge, patient cohorting, modified infection and source control procedures, and other COVID-19 related mitigation strategies.

Temporary changes of use or modification to the physical environment must be restored to original conditions following expiration of a waiver. Where such temporary changes are to be made permanent, projects must be submitted for Office of Statewide Health Planning and Development's (OSHPDs) review and approval (whether the

changes involve construction or not) no later than two weeks after waiver expiration. Permanent modifications to the physical environment or changes of use must be submitted to OSHPD as projects for review and approval (whether the changes involve construction or not) immediately.

### Services

1. Detailed notifications and notification timeframes specified in HSC sections 1255.1, 1255.2, and 1255.25 that are required when a hospital plans to downgrade, change, or eliminate the level of a supplemental service. The notification procedures and timeframes may only be waived if the hospital is modifying services to address patient surge related to COVID-19. A hospital must provide notice to the public regarding the availability of supplemental services at the hospital by posting signage at the entrance of each location and on its internet website. The hospital must provide notice at least 24 hours in advance of the service change to the public and CDPH. Approval is needed if a service is being added or changed.
2. Due to the alternative arrangements available for homeless patients authorized by Executive Order N-32-20 (PDF), detailed discharge planning documentation and the provision of nonmedical services to homeless individuals specified in HSC section 1262.5 is temporarily waived.

### Staffing

Hospitals shall bring staffing levels into state ratio compliance within two weeks of this AFL issue date. Only those hospitals experiencing a COVID-19 related surge of patients or staffing shortages resulting from COVID-19 impacts including; increasing community spread, increasing need to meet demand for surge either by regional surge or incoming transfers, daycare or school closures, COVID-19 staffing absenteeism for multiple reasons, or an emergency such as a fire or public safety power shutoff, may request a waiver of minimum nurse-to-patient ratios. A hospital seeking a staffing waiver must submit a CDPH form 5000A (PDF) and provide supporting documentation to the CHCQ Duty Officer at [CHCQDutyOfficer@cdph.ca.gov](mailto:CHCQDutyOfficer@cdph.ca.gov) and copy the local district office. CHCQ is able to respond quickly to urgent requests from hospitals seeking a waiver 24/7 and should only mark urgent if needed approval within 8 hours. Pursuant to the Proclamation of Emergency (PDF), all staffing waivers will be posted on the CDPH website. Hospitals must resume mandatory staffing levels as soon as feasible during the waiver period to minimize the need for additional waivers. Temporary staffing waivers will only be approved for 90-days. A hospital may reapply for a waiver if the conditions necessitating the waiver still apply.

This statewide waiver is approved under the following conditions:

- Hospitals shall continue to comply with adverse event and unusual occurrence reporting requirements specified in HSC section 1279.1 and Title 22 California Code of Regulations section 70737(a).
- Hospitals shall report any substantial staffing or supply shortages that jeopardize patient care or disrupt operations.
- Hospitals shall continue to provide necessary care in accordance with patient needs and make all reasonable efforts to act in the best interest of patients.
- Hospitals shall follow their disaster response plan.
- Hospitals shall follow infection control guidelines from the Centers for Medicare and Medicaid Services (CMS) and the Centers for Disease Control and Prevention (CDC) related to COVID-19.
- Hospitals shall comply with directives from their local public health department, to the extent that there is no conflict with federal or state law or directives or CDPH AFLs.

CDPH understands the importance of ensuring the health and safety of all Californians and maintaining vital access to acute care services. CDPH encourages facilities to implement contingency plans to address staff absenteeism and the rapid influx of patients. CDPH will continue to promote quality healthcare, provide technical assistance and support compliance with core health and safety requirements, pursuant to Executive Order N-27-20 (PDF). CDPH is taking this unprecedented action due to the significant challenges California's health care system is facing as a result of the COVID-19 outbreak. As a result of this temporary waiver, hospitals do not need to submit individual program flexibility requests for the requirements specified above, except when seeking a staffing waiver.

This waiver is valid until March 1, 2021 and may be extended or reduced based on the conditions of the pandemic and any updated Executive Orders or guidance from CMS or the CDC.

If you have any questions about this AFL, please contact your local district office.

Sincerely,

**Original signed by Heidi W. Steinecker**
