

The following question should be asked to all visitors upon arrival to the check-in desk:

Have you had any of these kinds of symptoms in the past 24 hours?

General:

- fever
- body aches
- fatigue

Respiratory:

- cough
- sore throat
- shortness of breath

Neurological:

- headache
- sudden loss of smell or taste

Abdominal:

- nausea
- diarrhea

IF YES

"Are you seeking care?"

YES

Guide them to the emergency department.

NO

Provide a standard mask to the visitor if not already worn and encourage them to return home and choose to visit on another day when they are symptom free. If it is not possible to return on a different day, instruct the visitor to keep the mask on during their stay at the facility.
