

## Health Policy

### *Per our educational training agreement*

For all field experiences, your academic institution must verify that every student and instructor meets the necessary health, drug screening and immunization requirements according to the Training Site Rules. This verification must be submitted via the Training Site's online registration process at least 30 days before arrival.

#### **Pre-placement health screen components:**

- Physical exam
- Tuberculosis test
- Hepatitis B
- MMR vaccine or positive titer
- Varicella vaccine or positive titer
- 10-panel drug screen

*Please note that the Training Site is **not** responsible for the cost of providing these health or drug screening services/tests. Student and Instructor files related to these screenings must be made available for the Training Site to audit at any time.*

## Background Check Policy

### *Per our educational training agreement*

Your academic institution is responsible for completing a background screening for every student aged 18 or older and instructor who will be at the Training Site. This screening must be conducted by an independent entity, following the guidelines set forth in CommonSpirit Health's Human Resources Background Administrative Policy A-008 and related procedures. The school must notify the Training Site of any negative background information found for any student before they begin their field experience.

*Please note that the Training Site is **not** responsible for the cost of providing these health or drug screening services/tests. Student and Instructor files related to these screenings must be made available for the Training Site to audit at any time.*
